Press Release

McCamish Systems Completes SAS 70 Type II Audit, Achieves Unqualified Certification for Key Business Operations

Atlanta, Georgia, December 6, 2005: McCamish Systems, a leading financial services BPO provider to the Life Insurance and Retirement Services Industries, announced today that it has successfully completed a SAS 70 Type II Audit of its operations for the period ending September 30, 2005. The SAS 70 audit was conducted by Porter Keadle Moore, LLP, a national CPA firm, and covered McCamish's controls placed in operation and tests of operating effectiveness. While McCamish had routinely submitted to Type I Audits in the past, the Type II became mandatory for all outsourced service providers due to the requirements of Section 404 of the Sarbanes-Oxley Act of 2002.

The Statement of Auditing Standards No. 70 (SAS 70) is an internationally recognized auditing standard developed by the American Institute of Certified Public Accountants to measure the reliability of a service organization's internal processes and controls. SAS 70 is widely valued because it signifies that the organization has undergone a rigorous, detailed audit of its controls by an independent accounting and auditing firm. By successfully completing a Type II audit, an organization can offer its clients and others an audit report that provides an independent assessment of whether the controls were placed in operation, suitably designed and operating effectively.

"McCamish's receipt of a clean SAS 70 Type II report is yet another example of the premium we place on the integrity of our client data and quality of service," said Gordon Beckham, President and CEO of McCamish Systems. "Our operational infrastructure and controls are second to none, and the results of our Type II Audit evidence the leadership position McCamish Systems has taken as a premier service organization in the post-SOX environment."

Mike Betts, Senior Vice President and Chief Operations Officer said, "We are extremely pleased with the audit report as it validates that our focus and attention is on providing our clients with the best back office services in the industry."

About McCamish Systems, L.L.C.

McCamish Systems is a premier provider of BPO services to the Life Insurance Industry and counts seven of the top ten insurers among its many BPO clients. McCamish Systems also provides non-qualified benefit plan administration services to the financial services and retirement services industries. In addition to BPO services, McCamish Systems also makes its solutions available through remote processing and in license form.

The VPAS[®] product family includes VPAS[®] Life and VPAS[®] Benefit Plan Administration as client/server based, relational database systems that are scaleable, feature rich and flexible enough to be customized to suit unique client requirements.

The VPAS[®] Life application supports administration of sophisticated variable products as well as traditional life insurance products and annuities. Specialty products are also supported including private placement products and corporate and bank owned life insurance programs (COLI and BOLI). The VPAS[®] Benefit Plan Administration system provides recordkeeping capabilities for SERP, Split Dollar and other non-qualified benefit plans. All VPAS[®] products are Internet enabled, allowing clients, sponsors, brokers, agents and participants access to policy and plan information.

The PMACS[®] (Producer Management and Compensation System) application streamlines the administration processes related to managing insurance carrier and investment advisory firm field forces, agencies and brokers, and has been proven not only to significantly reduce operational expenses, but also to improve quality related to agent/producer/broker management services. This is accomplished through the significant automation of processes required for managing producers. The PMACS[®] application also provides highly flexible capabilities for managing the complex management and compensation reporting hierarchies found in retail insurance producer groups for both Life and Property Casualty Insurance.

Deferral+[®] and Advisorfolio[™] are web-based sales support platforms that accelerate the design, sale, implementation and communication of executive benefit programs.

McCamish Systems is a privately held company based in Atlanta, Georgia. For more information about McCamish Systems, please contact Barbara Grissom or Steve Talnose at 800-366-0819, Excellence@McCamish.com, or visit our web site at www.McCamish.com.
