Press Release

The Nolan Financial Group and McCamish Systems Extend Retirement Services Contract through 2013

Atlanta, Georgia, September 3, 2008: McCamish Systems, LLC announced today a five-year renewal contract for its services to The Nolan Financial Group. Under the agreement, The Nolan Financial Group will continue to use McCamish's recordkeeping platform, VPAS® Benefit Plan Administration, for the administration of their non-qualified deferred compensation business.

"Mike Nolan and his team have been an instrumental partner in the maturation of our product for the better part of this decade. Their knowledge of the industry and feedback to us regarding our offering is invaluable. I am very pleased that we can continue to rely on this partnership", said Ed Edwards, Vice President of Retirement Services for McCamish Systems.

"The successful administration of our corporate clients' nonqualified retirement plans is even more critical today given the additional plan complexities created by the passage of IRC Section 409A. Our senior management team continuously analyzes all of the available administration platforms available in the marketplace. We came to the same conclusion as we did five years ago that McCamish's recording keeping platform, VPAS® Benefit Plan Administration, continues to exceed our clients' highest expectations" said Michael Nolan, President & CEO of the Nolan Financial Group.

"McCamish is very proud of our long-term relationship with Mike Nolan. Mike's ability to drive scale and volume of business, coupled with his creative plan design solutions, is a good match for our industry-leading platform. While we are always pleased to add new clients to our Retirement Services business, it is especially rewarding to renew long-term agreements with existing clients," said Gordon Beckham, President and Chief Executive Officer of McCamish Systems.

About The Nolan Financial Group

For more than 20 years, Nolan financial has specialized in the custom design, enrollment, funding and administration of nonqualified retirement plans for the benefit of the senior executives of mid to large size public, private and tax exempt organizations.

The mission of the Nolan Financial Group is to play an integral role with its clients in developing the right nonqualified executive compensation and benefit solutions that allow the client to attract and retain the executive talent it needs to insure its on-going success in the marketplace.

About McCamish Systems, L.L.C.

McCamish Systems is a premier, full service provider of BPO services to the Life Insurance Industry. The company supports both traditional and non-traditional life insurance and annuities across a myriad of markets and counts half of the top twenty insurers among its many clients.

McCamish also offers a uniquely comprehensive, fully integrated, 409A compliant sales support and non-qualified benefit administration solution to institutions within the Retirement Services Industry.

McCamish's intellectual property, including VPAS[®] Life, PMACS[®], Deferral+[®], Advisorfolio[™] and VPAS[®] Benefit Plan Administration, serves as the backbone of the company's services business model and can be customized to suit unique client requirements.

The VPAS[®] Life application supports traditional and non traditional life and annuity products, including specialty products such as private placement and corporate and bank owned products. The PMACS[®] (Producer Management and Compensation System) application streamlines the administration processes related to managing and compensating insurance carrier and investment advisory firm field forces, agencies and brokers. The PMACS[®] application provides stand alone Producer Services or can be integrated with a McCamish life and annuity outsourcing business.

Deferral+[®] and Advisorfolio[™] are web-based sales support platforms that accelerate the design, sale, implementation and communication of executive benefit programs and are fully integrated with the VPAS[®] Benefit Plan Administration system which provides the recordkeeping functionality for these plans.

In addition to BPO services, McCamish deploys its intellectual property through information technology outsourcing and license solutions.

McCamish Systems is a privately held company based in Atlanta, Georgia. For more information about McCamish Systems, please contact Barbara Grissom, Steve Talnose or Steve Gondek at 800-366-0819, Excellence@McCamish.com, or visit our web site at www.mccamish.com.
